Grave Forest Situation Follows September Hurricane

Woodland problems of timber salvage and fire control created in many towns by the September hurricane are of the greatest importance. **GOOD CITIZENSHIP CALLS FOR PERSONAL AND WIDESPREAD ACTION.**

The salvage of every thousand feet of logs which can be sold means money for landowners, wages for workers, employment for trucks, teams and machinery, as well as reduced forest fire hazard for all. If owners of windthrown timber have not yet acted, they should communicate with those who can help. Town Chairmen are fully informed; State Advisory Agents can help to start logging by suggesting names of operators and giving other useful advice; Federal Agencies are increasing the number of log storage places as rapidly as possible. **INDIVIDUALS MUST NOW CO-OPERATE.**

Forest fire danger for several years will be greater than usual. So much work must be done by public agencies to reduce hazard along roadsides, near improved and other exposed areas that many places will remain hazardous for some time to come. **INDIVIDUAL LANDOWNERS MUST TAKE A PERSONAL INTEREST!** Aid in clean-up work through the Agricultural Conservation Program is available to any woodland owner at \$4.00 per acre on areas up to 15 acres. The County Agent should be consulted.

Support your local Forest Fire Wardens and Deputies. They are planning, with State and Federal

agencies, an intensive campaign to control fires. Help them by strict observance of the fire laws. Kindle no open fires without a permit from the Warden except when the ground is covered with snow. Cooperate by reporting fires you may see and in other ways. Fire fighting tool supplies are inadequate and should be reasonably increased by many towns. **YOU CAN HELP, AND IT WILL PAY, TO PREVENT FOREST FIRES!**

JOHN H. FOSTER, State Forester.

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Grantham:

This is my first report on the Grantham schools since the reorganization of the Supervisory Union due to legislative economy, whereby several districts in the State were reorganized. It was my privilege to be associated with the Grantham schools for eight years, from 1925 to 1933. It is a pleasure to return and see that the school buildings, in a general way, have been greatly improved during the past five years.

The electric lights in both buildings and the toilet facilities at Grantham Village are highly gratifying. The exterior of the buildings should be painted during the coming summer, but this may not be possible due to the deficit incurred during the preceding years.

ENROLLMENT

The enrollment for the present year will be found on another page. The total is 71 up to January 1. There are almost as many children in the North Grantham school as there are in both rooms in Grantham Village. It might be well even now to bring the seventh and eighth grades to the Grantham Village school, but it certainly will be necessary if there is further increase in numbers.

From year to year more children are attending neighboring high schools. This necessitates an increase each year in high school tuition assessment. Some talk has been made concerning State Aid for high school tuition payments, but as yet no legislative action has been taken.

THE BUDGET

The budget, as made up, is designed to carry your schools along in the same progressive manner in which they have been going this year and last. The State Aid amount is estimated at the present moment and may be a little more or a little less. It no doubt should be more, on account of the decrease in valuation due to the timber loss, but since the loss is general throughout the State, it is hard to know whereby State Aid could be increased to make up for local depreciation. The budget, considering the high type of teaching we are getting and the fact that it is our own children who are receiving the benefit, cannot be considered as excessive in comparison with the costs in other communities of the same or even greater size.

REPORT OF SCHOOL NURSE

January 1, 1938 to January 1, 1939

Number of children inspected		67	
Number of school visits		41	
Number of home visits		20	
Defects found		Corrected	Improved
Enlarged tonsils	8	3	
Underweight	7		4
Teeth	30	24	
Poor posture	7		7
Vision		1	1
Cervical glands	5	5	

Measles 4, pediculosis 4, skin infection 3, pneumonia 1

A school dental clinic was held in both schools in April, 1938. Twenty-four pupils received dental care; five were examined by Dr. E. F. Keene of Newport.

The school health work includes the routine inspection for outstanding defects, classroom inspection, inspection before returning to school after sickness, weighing and measuring, home visits and taking children to clinics or hospital.

I wish to thank the Superintendent of Schools, the School Board, the teachers, parents, pupils and other Grantham folks for their cooperation and splendid interest in the health program.

ZEPHYRINE L. HASHAM, R. N.,

School Nurse.

TESTING PROGRAM

During the latter part of February standard tests are being given in all of the schools to ascertain the capacity to learn, and these are followed by achievement tests to check on the standard of progress which our children are making with relation to that of children in various sections of the country. This is a necessary function of teaching and supervision, so that we can check ourselves and also determine whether the children are working to capacity.

TEACHERS

I am glad to have found three very excellent teachers in charge of our schools and hope that they or their equal can be retained for another year.

CONCLUSION

It is gratifying to know that a considerable number of parents attend the special exercises which teachers and pupils arrange. This gives encouragement to the

teachers and pupils alike. Appreciation is hereby expressed for the cooperation of teachers, pupils, and you members of the School Board.

Respectfully submitted,

WILLIAM J. ENGLISH
